

Specifications

Insulation Adhesive Tape - Thin Type DHV

January 31, 2020

Inaba Denki Sangyo. Co., Ltd.

Research & development division

1. Application

This specifications applies to Insulated Adhesive Tape - Thin Type DHV.

2. Product specifications

Product specifications for Insulated Adhesive Tape - Thin Type DHV are shown below.

Model No.	Size [Width (mm) × Length (m)]	Insulation thickness (mm)	Color
DHV-5010	50 × 10 (≒2"×33')	3 (≒0.12")	White
DHV-5020	50 × 20 (≒2"×65')		
DHV-7510	75 × 10 (≒3"×33')		
DHV-7520	75 × 20 (≒3"×65')		
DHV-10010	100 × 10 (≒4"×33')		
DHV-10020	100 × 20 (≒4"×65')		

NOTE:

- Fix both ends of DHV by adhesive tape to prevent DHV from peeling off.
- Keep away from direct sunlight and keep at cool place.

3. Performance

The performance of Insulated Adhesive Tape - Thin Type DHV is shown below.

Composition	Material	Insulation heat resistant temperature	Thermal conductivity (Average temperature 23°C)
Base material	30 times expanded polyethylene foam (JIS A 9511 A-PE-C-1)	70°C (≒158F)	0.043 W/m · K
Adhesive	Acrylic adhesive	-	-
