

INABA DENKO INTRODUCES

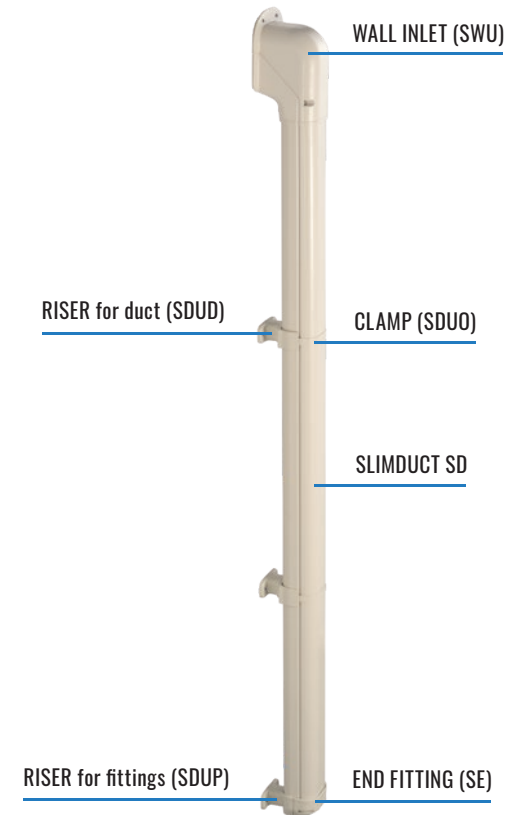

SLIMDUCT Bridge

The SLIMDUCT SD Lineset Cover System for residential properties is the ideal choice to conceal, protect, and beautify exposed linesets. Our SLIMDUCT Bridge further improves the appearance of an installation by enabling the SLIMDUCT SD-77 series of ducts and fittings to run straight over obstacles and uneven walls. Manufactured from special high-grade materials, the SLIMDUCT Bridge moves you beyond traditional-looking installations.

OVERVIEW AND TECHNICAL SPECIFICATIONS

- Available in Ivory color.
- Available in SD-77 Series (3").
- Use in combination with the duct and fittings of SD-77 series.
- The best solution to insure the beautiful finish by elevating and letting SLIMDUCT SD run over obstacles or unevenness on the wall.
